

Cutting Edge: The B&B App is launched.

In the world of Bed and Breakfast in Canada, the BC Bed & Breakfast Innkeepers Guild has just shot ahead. The Guild is the first Canadian B&B association to launch a first fully mobile version of the guild's website.

Features of the new site include:

- Auto detecting of mobile users
- Find a B&B by city, region or special
- Uber-fast loading
- View details on members listings with photos and descriptions, phone numbers, google maps, directions, website link and availability link.

You no longer need your travel books to find a B&B in the province of BC.

With access to over 200 B&Bs in all areas of the province, the BC B&B Innkeepers Guild mobile

version is the best possible traveling tool. The mobile version is like an app you don't have to pay for. It will detect that a smart phone is accessing the website and will download our mini version for the smaller device.

All our members listings are there with all the contact information and maps needed to find them.

Since you already have the phone, you can call or check on-line for reservations at our member B&Bs.

This will work well for our last minute customers as well as the customer doing a little daydreaming before the vacation.

Rest Assured with BC Bed & Breakfast Innkeepers
